Attraction 4 Learn about Animal Diets
 Every day, our zoo staff talks about animal habits and diets at certain spots in the zoo, while feeding the animals.

Note: The feeding schedule may be changed or canceled without notice, due to weather or animal conditions.

A zoo where you can learn and have fun at the same time!

Ishikawa Zoo was opened in October 1999 at its present location. The Zoo has an area of 23 ha and hosts 3500 exhibits of 170 species that include mammals, birds, amphibians, reptiles, fish and so on. The Zoo has a variety of attractions such as animal petting corner, animals' food & diet guides, breathtaking displays, all of which create a feeling of intimacy towards these animals. The zoo staff has also been putting a lot of emphasis on eco-friendly activities such as making compost from the animal waste or recycling the rain water and so on.

● Get up close and personal with animals

● Conservation of Species

● Rescue and protection of the Wildlife

● Educational and Promotional Activities
